

Fermín Ares

Personal information

Full name: Fermín Ares Ravera

Birthday: 1989-09-08

Nationalities: Uruguay, Italy

Location: La Paloma, Rocha, Uruguay (UTC -03:00)

Phone: +598 91 062 953

Email: fermin@ares.uy

Website: <https://ares.uy>

GitHub: <https://github.com/ferares>

LinkedIn: <https://www.linkedin.com/in/ferm%C3%ADn-ares-0249b71ab/>

Featured projects and demos

-  [BusesUY](#): A search engine for medium & long distance bus lines in Uruguay that can calculate transfer trips.
 - Stack: Go, PostgreSQL, TypeScript, Next.js
-  [La Marche Du Crabe](#): A 2 player remote web game based on the board game "La Marche Du Crabe"
 - Stack: Typescript, Next.js, Websockets, Node.js
-  [Arbolado Urbano](#): An interactive web tool for exploring data gathered from different census about city trees.
 - Stack: Lumen (PHP), MySQL, TypeScript, Vite
-  [Papelapp](#): A web app for figuring out the cost per meter of toilet paper rolls.
 - Stack: TypeScript, Vite
-  [Écouter](#): A web app for language teachers and students to access the accompanying audio tracks from their textbooks with ease.
 - Stack: TypeScript, Vite

Work experience

- **Freelance software developer:** September 2015 - Present

Most of my experience is in web and web app development working on both simple projects like landing pages and complex ones like e-commerce sites, blogs, games, etc.

I've worked both alone and with teams for companies like [StartApp Labs](#), [Om Lab](#), [GenuineBee](#) and [December Labs](#). I have plenty of experience working remotely.

Some examples of my work (as a web developer)

Working with [StartApp Labs](#):

- <https://angular-templates.io/>
- <https://ionicthemes.com/>

Working with [Om Lab](#):

- <https://salamhello.com/>
- <https://www.lucchese.com/>
- <https://www.reelz.com/>

Working hand in hand with design studios:

- <https://www.grigadale.org/>
- <https://opticalamaison.com/>
- <http://www.atlanticodesarrollos.uy/>
- <https://pipiña.uy/>

I also work for the [Arbolado Urbano](#) project as its sole developer and I'm the creator of [BusesUY](#).

Technologies

Some of the technologies I use daily:

- **Frontend & UI:** HTML5, CSS3, JavaScript, Angular, React, Next.js, Vue
- **UI Frameworks:** Bootstrap, Tailwind, SASS
- **Backend:** Node.js, PHP (Laravel, Lumen), Python (Django), Go
- **Database:** MongoDB, MySQL, PostgreSQL
- **CMS & E-commerce:** WordPress, Shopify
- **Other:** Linux, macOS, Android, Windows, Google Analytics & Tag Manager

Languages

- **Spanish:** Native speaker
- **English:** Advance level
- **Italian:** Intermediate level
- **French:** Basic level
- **Portuguese:** Basic level
